

Annual Meeting of Thai Society for Stem Cell Research  
and Thai-UK Stem Cell Network Symposium  
6<sup>th</sup> February 2012  
Faculty of Medicine Siriraj Hospital  
Mahidol University, Bangkok, Thailand  
Vikit Viranuvati Conference Room, Assadang Building, Floor 4

08:30-09:00	<b>Registration</b>	13:00-13:45	<b><i>“Transcriptional regulation and stem/progenitor cell heterogeneity in hematopoietic lineage commitment”</i></b> Claus Nerlov, University of Edinburgh, UK
09:15-09:30	<b>Welcome &amp; “Thai Society for Stem Cell Research (ThSCR)”</b> Surapol Issaragrisil, Mahidol University, Thailand	13:45-14:00	<b><i>“Gene therapy in Thalassemia: Lentivirus modification for human use”</i></b> Suradej Hongeng, Mahidol University, Thailand
	<b>Opening address</b> UK Ambassador	14:00-14:15	<b><i>“Endothelial progenitor cells in diabetes”</i></b> Pakpoom Kheolamai, Thammasat University, Thailand
	<b>Welcome address</b> Udom Kachintorn, Dean, Faculty of Medicine Siriraj Hospital, Mahidol University	14:15-14:30	Coffee Break
09:30-09:45	<b><i>“The Thai-UK stem cell network”</i></b> Peter Andrews, University of Sheffield, UK	14:30-15:15	<b><i>“Stem cells for cell replacement therapy in neurodegeneration: the Huntington’s disease paradigm”</i></b> Anne E. Rosser, University of Cardiff, UK
09:45-10:30	<b><i>“Culture adaptation of human embryonic stem cells: oncogenesis in vitro”</i></b> Peter Andrews, University of Sheffield, UK	15:15-15:30	<b><i>“Somatic stem cells: properties and potentials for regenerative medicine ”</i></b> Weerapong Prasongchean, Chulalongkorn University, Thailand
10:30-10:45	<b><i>“Establishment of human embryonic stem cell banking”</i></b> Kamthorn Pruksananonda, Chulalongkorn University, Thailand	15:30-15:45	<b><i>“An ex vivo gene therapy model for Alzheimer’s disease”</i></b> Narisorn Kitiyanant, Mahidol University
10:45-11:00	Coffee Break	15:45-16:30	<b><i>“Stem cell therapy for the treatment of retinal disease”</i></b> Anthony Vugler, University College London, UK
11:00-11:45	<b><i>“Twinning: the ultimate regeneration”</i></b> Claudio D. Stern, University College London, UK	16:30-16.45	<b><i>“Limbal stem cell niche”</i></b> Nipan Israsena, Chulalongkorn University, Thailand
11:45-12:00	<b><i>“Animal cloning and early embryonic development”</i></b> Rangsan Parnpai, Suranaree University of Technology, Thailand	16:45-17:00	<b><i>“Hematopoietic stem cells: Application in malaria research”</i></b> Tasanee Panichakul, Suan Dusit Rajabhat University, Thailand
12:00-12:15	<b><i>“The role of heterochromatin in cellular reprogramming”</i></b> Termpong Wongtawan, Mahidol University, Thailand	17.00	<b>Closing remark</b> Surapol Issaragrisil, Mahidol University, Thailand
12:15-13:00	Lunch Break
